DETAILED ACTION

Specification

1. The abstract of the disclosure is objected to because of the phrase "comprising" at line 3. Correction is required. See MPEP § 608.01(b).

Claim Rejections - 35 USC § 112

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claims 1-12 are incomplete because steps of cleaning residues from the surface have not been recited.

Claims 1-4, are indefinite in the recitation of "non-reactive gas", because it is not clear if it refers to non-reactive with respect to the chamber or to the substrate.

In claims 4, 10, line 1, "the flow rate", and in claims 5, 6, line 1, "the concentration" are without proper antecedent basis.

In claims 7, 11, lines 1-2, "in the non-reactive gas is nitrogen" is indefinite and confusing term.

In claims 1, 9, 12, line 1, "the surface" lacks antecedent basis.

4. Claims 1-12 are rejected under 35 U.S.C. 112, second paragraph, as being incomplete for omitting essential steps, such omission amounting to a gap between the steps. See MPEP § 2172.01. The omitted steps are: the steps of cleaning process residues from the surface of a substrate processing chamber component having holes therein.

Allowable Subject Matter

5. Claims 19, and 12 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action.

6. Claims 2-8, and 10-11 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, second paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.
